

 THE SANKEI BUILDING CO.,LTD.

BUSINESS OVERVIEW

Sankei Building owns properties in some of Japan's foremost business districts

Sankei Building owns properties in Japan's 2 major cities (Tokyo and Osaka), is engaged in real-estate development (offices, residences, hotels, logistics facilities, etc.) as well as leasing/management/cleaning of buildings, operation of commercial facilities/restaurants, facilities for seniors, a performing arts hall, and promotion of performances. We endeavor to provide services of value by leveraging the collective strengths of the group to the maximum.

FUJI MEDIA HOLDINGS

Urban development undertaken by the largest media group in Japan

Fuji Media Holdings, Inc., with its broadcasting business as its core, is a holding company that operates 3 business domains: media content, urban development/tourism, and other businesses. Sankei Building is an "urban development/tourism" group engaged in developing and operating real-estate such as office buildings, residential properties, hotels, logistics facilities, etc. We create added value from various facets of businesses through content strength and media development strength that only can be provided by a media related developer.

FUJISANKEI COMMUNICATIONS GROUP (FCG) is Japan's largest media conglomerate consisting of 78 companies, 4 corporations, 3 museums and 13,000 employees. We at FCG aspire to reach out and fulfill the hearts of audiences, listeners, readers, and consumers from all over the world as Japan's leader in the information industry, while acknowledging the size of our social influences at all times.

Providing platforms for people gathering in urban areas to work, relax, and enjoy themselves

In addition to its flagship buildings located in Tokyo and Osaka, Sankei Building is developing and operating rental office buildings equipped with the very latest features. As an integrated developer that is closely attentive and progressing with the people's urban lifestyles within buildings, detailed thoughts have been given to providing spaces that are people & environment friendly, as well as safe and secure.

TOKYO SANKEI BUILDING

Tokyo Sankei Building is a high-rise multipurpose property located right in the heart of Otemachi, the foremost business district in Japan. As a landmark of the Otemachi area where people from neighboring buildings also come and visit, the building creates liveliness to the city.

Completion: 1st phase construction/September 2000,
2nd phase construction/September 2002
Utility and function: Office, hall, retail/service establishment
Total floor area: 83,255 m²
Number of floors: B4F-31F and 2 penthouse floors

BREEZÉ TOWER

BREEZÉ TOWER is Sankei Building's flagship building in the Western Japan area. Together with offices that provide pleasant work spaces, the building is also attracts a lively crowd with events held at the commercial facilities and a theater hall that acts as a beacon of Osaka theater culture.

Completion: July 2008
Utility and function: Office, hall, retail/service establishment
Total floor area: 84,749 m²
Number of floors: B3F-34F and 1 penthouse floors

HOMMACHI SANKEI BUILDING

With its core concept being "Good Work, Good Health!", care is also taken to help prevent the spread of infectious diseases at Hommachi Sankei Building. The building features achieving a true contactless experience with touchless buttons and remote controls to guide guests from the entrance to their offices. Together with providing a healthy environment, the building is also designed to be energy-saving and resource-efficient.

S-GATE

"S-GATE" is a high-grade mid-sized office building series which Sankei Building has developed mainly in the central Tokyo metropolitan area. The building supports companies in a state of continual evolution by delivering amenities as well as environmental and safety support. It provides high-grade facilities and specifications that are on par with high-rise buildings. Properties will continually be developed in major business areas such as Tokyo and Osaka etc.

HAREZA IKEBUKURO

Sankei Building is involved in a large-scale redevelopment in the Ikebukuro area of Tokyo, which is home to the Japanese sub-culture of animation and "manga" comics and has gained attention from around the world as part of the Japanese government "Cool Japan" promotion initiative. Constructed through the redevelopment of offices formerly used by the government in the Toshima-ku area in Tokyo, "Hareza Ikebukuro" is crowded with visitors as a multi-purpose facility with a large-scale office building at its core, a cinema complex, theater, event space, studio and hall.

Hotel & Resort Development and Operation

Sankei Building is developing hotels and resorts to offer hospitality to guests from around the world. HOTEL INTERGATE's featured concept is "All For Tomorrow" and presents a comforting space for guests to pleasantly greet each morning. Well-established Sapporo hotels like the "Sapporo Grand Hotel", the "Sapporo Park Hotel", and others, are included in the major facilities Sankei Building operates. We are also proud to operate the comprehensive seaside leisure facility, "Kamogawa Sea World". With the theme of "Encountering the ocean world", this facility offers a place for guests to learn about the importance of marine life and the environments, specifically about 11,000 river and marine creatures, through activity programs and live exhibitions.

INTERGATE HOTELS

SAPPORO GRAND HOTEL

SAPPORO PARK HOTEL

KAMOGAWA SEA WORLD

ALOFT TOKYO GINZA

The "ALOFT TOKYO GINZA" was the very first property launched in Japan by the Marriott International hotel brand, developed by Sankei Building. Marriott operates the next generation, select-service 206-room hotel under the ALOFT brand to deliver an enhanced experience with advanced technology that aligns with the pace of each guest as well as design features available nowhere else.

KOBE SUMA SEA WORLD

Originally developed as a scenic location for villas and health resorts, redevelopment efforts to create a more intimate space within Suma Ward of Kobe are proceeding. Sankei Building is working to carefully preserve the charms and resources which naturally exist in this area. "KOBE SUMA SEA WORLD" was launched in June 2024.

Addressing diverse needs by providing living spaces for people living in urban areas

Sankei Building endeavors to deliver living spaces that meet the diverse range of life stages and lifestyles of customers. The property sales/renting of "LEFOND" branded condominiums play a central role in developments. In addition, by taking a flexible approach to what is incorporated into developments, such as rental residences in multi-purpose facilities which incorporate commercial facilities, etc., we create places of "happiness, satisfaction, inspiration, and joy" for those living an urban lifestyle.

Expanding business globally in search of new business opportunities

Sankei Building commenced its overseas business in 2015. A real-estate management company was established with a local Vietnamese partner to leverage building management planning experience and utilize its knowledge in training of supervisors, cleaners, and more. Business is doing well, and the detailed Japanese style of service is being gaining recognition locally. After this, the company took part in the planning of real-estate developments in America and the Philippines and plans to implement knowledge gained in Japan to actively develop business in the future.

- 1 Los Angeles, US**
Completion: March 2023
Utility and function:
Residence (98 rooms)

Number of floors: B2F-4F
- 3 Monrovia, US**
Completion: 2025
Utility and functions:
Residence (232 units)
Total floor area: 7,418 m²
Number of floors: 1F-7F

Addressing the needs of an aging society by providing residences that give peace of mind to senior citizens and their families

Sankei Building develops and operates paid senior citizen homes in response to the rapid aging of Japanese society. As well as providing residential spaces and facilities, we also take pride in developing facilities where we design the buildings and common spaces to provide assisted “self-supporting care-services” so that the elderly may continue to live on their own with dignity. Developments are centered on the outskirts of Tokyo, and operated by Sankei Building Well Care; a Sankei Building subsidiary company.

Developing logistics facilities which become the core support of local infrastructure

Sankei Building is developing logistics facilities nationwide to match changing consumer purchasing styles. We aim to establish facilities that are mindful of the local community and the environment, as well as ones where all employees can work with ease.

INVESTMENT AND ASSET MANAGEMENT

Commencement of a real-estate investment service, creation of new investment opportunities

The Sankei Building Group operates a real-estate investment trust (J-REIT). The trust includes office buildings, hotels, rental residences, etc. across the nation with a primary focus on the Tokyo metropolitan area. Our goal is to create the largest investment value by leveraging our strengths from our comprehensive support system.

Real-estate investment trust (J-REIT)

Sankei Building Asset Management Co., Ltd. is the asset management company of the Sankei Real Estate investment entity that acquires/operates prime properties in the pursuit of optimal investor value.

Sankei Building has grown from its core building business with its roots from the Tokyo Sankei Building and Osaka Sankei Building properties built in the 1950s. In 2005, the company advanced into the residential property business with its "LEFOND" brand, and subsequently also expanded its business footprint with its senior business, and hotel resort business. Expansion continues to this day in the number of properties being developed, scale as well as areas of operation.

Opening of Caption by Hyatt Namba Osaka

Aiming to be a corporate group that generates happiness amongst urban residents and widely contributes to society

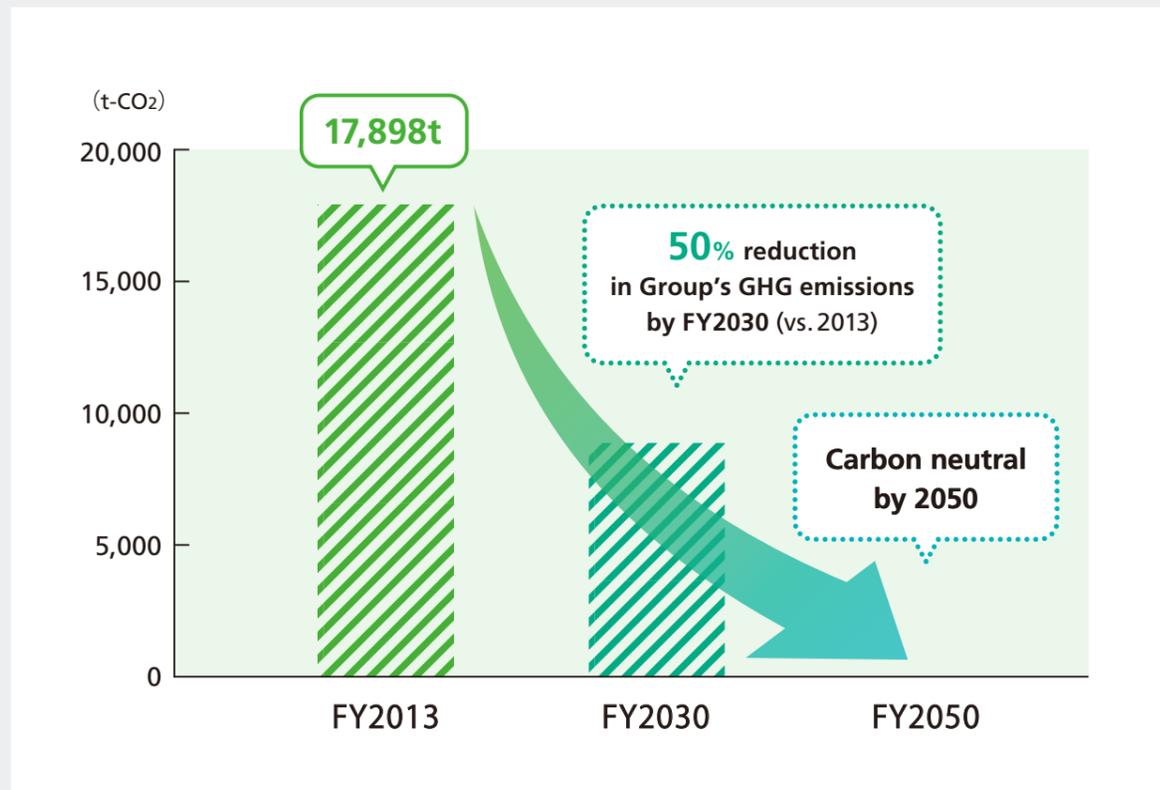

Corporate activities are starting to have a greater impact on stakeholders more than ever before. The Sankei Building group is keenly aware of its social responsibilities and corporate role of ensuring that sustainable development can be achieved. The group aims to impartially fulfill this role with all stakeholders.

Striving to reduce CO₂ emissions

Environmental initiatives are gaining increasing importance with the adoption of the Paris Agreement, an international initiative on climate change, and the Japanese government's announcement of its "2050 Carbon Neutrality Declaration." We appreciate the significance of such initiatives. Therefore, as a step toward achieving carbon neutrality by 2050, we have set a medium- to long-term CO₂ emissions reduction target called "CARBON HALF" that calls for a 50% reduction in our CO₂ emissions by FY2030 (compared to FY2013). We see this target as a critical challenge for us and will work toward it as a company.

■ Specific initiatives

In order to achieve our CARBON HALF decarbonization target, we set up a comprehensive Sustainability Linked Loans (SLL) framework and raised funds under the framework. We will apply it in promoting the development of environmentally certified properties. Moreover, we will expand our focus beyond new development projects to achieve energy savings in existing buildings by, for example, converting to LED lighting and planning heat source renovations. We will also contribute to the realization of a sustainable society by installing solar panels at logistics centers and other facilities and engaging in energy self-consumption.

Corporate Philosophy

Here at Sankei Building Group, we aim to be a corporate group that contributes to society by providing spaces & services that bring a sense of happiness, satisfaction, and joy to urban dwellers.

Created November 2010
